

KIOS RESEARCH AND INNOVATION CENTER OF EXCELLENCE

Special Scientist for Research – Research Associates (Smart Monitoring Technologies)

Title	: Special Scientist for Research (Research Associates)
No. of Positions	: Two (2)
Category	: Employment contract
Location	: University of Cyprus, Nicosia, Cyprus

The KIOS Research and Innovation Center of Excellence (www.kios.ucy.ac.cy) at the University of Cyprus announces two (2) Special Scientist for Research (**Research Associate**) positions **focusing on Smart Monitoring Technologies**, for full-time employment. The successful candidates will play a crucial role in the development and implementation of innovative health monitoring solutions that enhance personal and patient care and public and environmental health management and monitoring.

Who we are:

The **KIOS Research and Innovation Center of Excellence** is the largest research center at the University of Cyprus and in 2017 was upgraded to a European Research Center of Excellence through the KIOS CoE Teaming project. Currently, the Center employs more than 180 people who are supported by externally funded research and innovation projects. The KIOS CoE operates in a diverse environment as an equal opportunity employer.

What we do:

KIOS provides an inspiring environment for carrying out top level research and innovation in the area of Information and Communication Technologies, with emphasis on the Monitoring, Control and Security of Critical Infrastructures. Such infrastructures include power and energy systems, water networks, transportation networks, telecommunication networks and emergency management and response. The Center instigates interdisciplinary interaction and promotes collaboration between industry, academia, and research organizations in high-tech areas of global importance.

Why work at KIOS:

You will have the opportunity to work on various high-profile projects with great impact on society and the environment, not only on a local but also on a global scale.

In KIOS we strive to create a multicultural, diverse and inclusive workplace and we strongly support the continuous personnel evolution and development, both personally and professionally, to fulfill your long-term goals. We offer internal and external professional training, covering both technical and soft skills.

Job Details

The successful candidates are expected to:

- Conduct research in the area of Smart Monitoring Technologies, within the context of research and/or innovation projects.
- Collaborate on projects that involve the integration of advanced sensors and IoT systems to facilitate continuous tracking of health-related metrics, with applications in both smart health monitoring and public and environmental health.

- Design and optimize wearable devices.
- Analyze health data for actionable insights.
- Develop user-friendly interfaces for patients and healthcare providers.
- Contribute to the evaluation of smart monitoring technologies in real-world settings, assessing their effectiveness and impact on health outcomes, and extracting insights from air and wastewater or other environmental sources to monitor public health trends, detect emerging pathogens, and inform preventative strategies.
- Prepare reports and project deliverables.
- Produce, publish and present research results in high quality conferences and journals.
- Engage in the preparation of research and/or innovation proposals.

The required skills and expertise for the announced positions include one or more of the following areas:

- Biomedical engineering
- Wearable health monitoring
- Health sensor technology
- Digital health software development
- Data analytics
- Machine learning

Profile of the ideal candidate:

- Attention to detail
- Problem solving skills
- Team-player
- Reliable and trustworthy
- Flexible and eager to learn
- Able to adapt in a fast-paced dynamic environment
- Good communication, organizational and self-management skills
- Excellent knowledge of the Greek and English language

Qualifications and Experience:

- Bachelor's and/or Master's degree in Electrical and Electronics Engineering or Computer Engineering or Computer Science or a related field from an accredited institution.
- Doctorate degree or equivalent in the subject areas above or related fields.

Employment Terms:

The positions are on a contract basis. Initially, a one-year contract will be offered, with a 6-month probation period, which is renewable based on performance. The gross monthly salary depends on the candidate's qualifications and experience and will be between €2200 - €3200. From this amount, employee contributions to the Cyprus government funds will be deducted. A 13th salary bonus is incorporated in the monthly salary. Maternity leave will be granted based on Maternity Protection Law 1997(N.100(I)/1997), and the existing amendment laws.

Application:

Interested candidates should submit the following items online through the link:

<https://applications.ucy.ac.cy/recruitment>

- Cover letter explaining the interest of the applicant in pursuing a career at the KIOS CoE, along

with employment availability date

- Short summary of prior work experiences, activities and accomplishments (can be combined with the cover letter) (2 pages maximum)
- A detailed curriculum vitae in English or in Greek
- Copies of transcripts of BSc/MSc/PhD or other degree(s)
- Copy of an English language certificate
- Identify at least two referees that can provide reference letters

The applications should be submitted as soon as possible, but not later than **Friday, 10th of January 2025, at 5 pm**. The evaluation of the applications will begin immediately. At least the best three candidates that satisfy the required qualifications will be interviewed by a 3-member Selection Committee. **Candidates will be informed of the result of their application by the KIOS CoE.**

Applicants need not be citizens of the Republic of Cyprus. Applicants should however ensure, before applying, that in case they are selected they will be residing in Cyprus on a full-time basis during the employment period and submission of application implies acceptance of this condition.

The University of Cyprus shall collect and process your personal data according to the provisions of the General Regulation on Personal Data 2016/679 (EU).

The University of Cyprus (UCY) is committed to promoting inclusivity, diversity, and equality, as well as the elimination of all forms of discrimination in order to provide a fair, safe, and pleasant environment for the entire university community, where students and staff members will feel supported both in their professional and personal development, within and beyond their multiple identities. To this end, UCY seeks to create the necessary conditions that will encourage and respect diversity and ensure dignity both in the workplace and society at large. Moreover, UCY has adopted specific policies to promote equal opportunities, as well as respect and understanding of diversity, while it is committed to promoting and maintaining a working, teaching, and learning environment, free from any form of discrimination, whether direct or indirect.
